PROJECTS

A LANDING PAGE USING DJANGO:

Use Link: https://moderntools.herokuapp.com/

A customizable landing page to let users register and get access to a download page for a product and showcase its features.

SCHOOL QUIZ APP USING DJANGO:

Use Link: https://school-quiz-proj.herokuapp.com/

An app to let schools create quizzes by selecting a category and let users register and access those quizzes, and also get a scorecard in the end.

A TODO APP USING REACT & DJANGO RESTFUL API :

Use Link: https://tasks-react-app.netlify.app/

- A simple Todo-app to let users enter tasks and the app communicates with an API in the backend to save the tasks.

EMPLOYMENT HISTORY

EMAIL ADVISOR

Concentrix | April 2019-Aug 2020

My job role was to handle customers' queries over emails regarding billing, refunds, products, and troubleshooting of various other issues.
